

## Principali pubblicazioni realizzate grazie alle attività svolte presso il Centro di Biologia Genomica

- Ojeda-Granados C, Abondio P, Setti A, Sarno S, Gneccchi-Rusccone GA, González-Orozco E, De Fanti S, Jiménez-Kaufmann A, Rangel-Villalobos H, Moreno-Estrada A, Sazzini M. (2021). Dietary, Cultural, and Pathogens-Related Selective Pressures Shaped Differential Adaptive Evolution among Native Mexican Populations. *Molecular Biology and Evolution*, 39(1), msab290.
- Landini A., Yu S., Gneccchi-Rusccone G.A., Abondio P., Ojeda-Granados C., Sarno S., De Fanti S., Gentilini D., Di Blasio A.M., Jin H., Nguyen T.T., Romeo G., Prata C., Bortolini E., Luiselli D., Pettener D., Sazzini M. (2021). Genomic adaptations to cereal-based diets contribute to mitigate metabolic risk in some human populations of East Asian ancestry. *Evolutionary Applications*, 14(2), 297-313.
- Garagnani P, Marquis J, Delledonne M, Pirazzini C, Marasco E, Kwiatkowska KM, Iannuzzi V, Bacalini MG, Valsesia A, Carayol J, Raymond F, Ferrarini A, Xumerle L, Collino S, Mari D, Arosio B, Casati M, Ferri E, Monti D, Nacmias B, Sorbi S, Luiselli D, Pettener D, Castellani G, Sala C, Passarino G, De Rango F, D'Aquila P, Bertamini L, Martinelli N, Girelli D, Olivieri O, Giuliani C, Descombes P, Franceschi C. (2021) Whole-genome sequencing analysis of semi-supercentenarians. *Elife*, 10, e57849.
- Levi G., de Lombares C., Giuliani C., Iannuzzi V., Aouci R., Garagnani P., Franceschi C., Grimaud-Hervé D., Narboux-Nême N. (2021). DLX5/6 GABAergic expression affects social vocalization: implications for human evolution. *Molecular Biology and Evolution*, msab181.
- Sazzini M., Abondio P., Sarno S., Gneccchi-Rusccone G.A., Ragno M., Giuliani C., DeFanti S., Ojeda-Granados C., Boattini A., Marquis J., Valsesia A., Carayol J., Raymond F., Pirazzini C., Marasco E., Ferrarini A., Xumerle L., Collino S., Mari D., Arosio B., Monti D., Passarino G., D'Aquila P., Pettener D., Luiselli D., Castellani G., Delledonne M., Descombes P., Franceschi C., Garagnani P. (2020). Genomic history of the Italian population recapitulates key evolutionary dynamics of both Continental and Southern Europeans. *BMC Biology*, 18(1), 51.
- Barozzi C., Galletti M., Tomasi L., De Fanti S., Palazzini M., Manes A., Sazzini M., Galiè N. (2019). A Combined Targeted and Whole Exome Sequencing Approach Identified Novel Candidate Genes Involved in Heritable Pulmonary Arterial Hypertension. *Scientific Reports*, 9(1), 753.
- Gneccchi-Rusccone G.A., Sarno S., De Fanti S., Gianvincenzo L., Giuliani C., Boattini A., Bortolini E., Di Corcia T., Sanchez Mellado C., Dàvila Francia T.J., Gentilini D., Di Blasio A.M., Di Cosimo P., Cilli E., Gonzalez-Martin A., Franceschi C., Franceschi Z.A., Rickards O., Sazzini M., Luiselli D., Pettener D. (2019). Dissecting the Pre-Columbian Genomic Ancestry of Native Americans along the Andes-Amazonia Divide. *Molecular Biology and Evolution*, 36(6), 1254-1269.
- Gneccchi-Rusccone G.A., Abondio P., De Fanti S., Sarno S., Sherpa M.G., Sherpa P.T., Marinelli G., Natali L., Di Marcello M., Peluzzi D., Luiselli D., Pettener D., Sazzini M. (2018). Evidence of Polygenic Adaptation to High Altitude from Tibetan and Sherpa Genomes. *Genome Biology and Evolution*, 10(11), 2919-2930.
- Giuliani C., Sazzini M., Pirazzini C., Bacalini M.G., Marasco E., Gneccchi-Rusccone G.A, Fang F., Sarno S., Gentilini D., Di Blasio A.M., Crocco P., Passarino G., Mari D., Monti D., Nacmias B., Sorbi S., Salvarani C., Catanoso M., Pettener D., Luiselli D., Ukraintseva S., Yashin A., Franceschi C.,

Garagnani P. (2018). Impact of demography and population dynamics on the genetic architecture of human longevity. *Aging (Albany NY)*, 10(8), 1947-1963.

- Gnechi-Ruscione G.A., Jeong C., De Fanti S., Sarno S., Trancucci M., Gentilini D., Di Blasio A.M., Sherpa M.G., Sherpa P.T., Marinelli G., Di Marcello M., Natali L., Peluzzi D., Pettener D., Di Rienzo A., Luiselli D., Sazzini M. (2017). The genomic landscape of Nepalese Tibeto-Burmans reveals new insights into the recent peopling of Southern Himalayas. *Scientific Reports*, 7(1), 15512.
- Giuliani C., Sazzini M., Bacalini M.G., Pirazzini C., Marasco E., Fontanesi E., Franceschi C., Luiselli D., Garagnani P. (2016). Epigenetic Variability across Human Populations: A Focus on DNA Methylation Profiles of the KRTCAP3, MAD1L1 and BRSK2 Genes. *Genome Biology and Evolution*, 8(9), 2760-2773.
- Sazzini M., Gnechi Ruscone G.A., Giuliani C., Sarno S., Quagliariello A., De Fanti S., Boattini A., Gentilini D., Fiorito G., Catanoso M., Boiardi L., Croci S., Macchioni P., Mantovani V., Di Blasio A.M., Matullo G., Salvarani C., Franceschi C., Pettener D., Garagnani P., Luiselli D. (2016). Complex interplay between neutral and adaptive evolution shaped differential genomic background and disease susceptibility along the Italian peninsula. *Scientific Reports*, 6, 32513.
